WHY IT BELONGS

This place has tons of sweet treats and if you are like me, you will definitely enjoy these delicious treats. I ordered their roast beef hot dish and it was pretty good and thought that's a pretty unique dish. I also enjoyed their root beer, although I was too full for the drinks but this place also has some unique drinks, besides coffee they also offer smoothie and fruit juices!

SCENIC STOP

Sophie's Cafe

Rock Falls

WHY IT BELONGS

Unlike regular cafes, this place had some bubble tea which I did not wait to order. Bunch of savory and sweet tidbits to order, for me I liked the spinach and feta croissant. They do serve breakfast and lunch items too. This is also a bakery that promises some tasty baked goods including muffins and breads.

The Industrial

Rock Falls

WHY IT BELONGS

This is an upscale restaurant that I visited for dinner, drawn by its reputation for fine dining and impeccable service. I was not disappointed. Upon entering, we were greeted by the welcoming staff and escorted to my table, which offered stunning views of the river. The menu at The Industrial features an array of gourmet dishes showcasing fresh, seasonal ingredients. I had a wagyu beef burger with fresh cuts of wedges and for appetizers they had bread that is a complimentary item offered to everyone. They also fixed a mojito mocktail which was just perfect!
